Technical Data

| | |
|---------------------------|--|
| Power supply | 3 x 400 V/N/PE; 50 Hz |
| Performance | 0,75 kW |
| Drain | DN 50 |
| Water connection | G 3/4", min. 1 bar - max. 6 bar, 2-6° dH, 40° C |
| Fusing | 16 A |
| Weight | 350 kg (RSW-I) resp. 500 kg (RSW-II) |
| Water consumption | ca. 400 -500 ltr./ h (depending on model) |
| Heater | Hot water on site or steam heated |
| Tank capacity | 350 - 400 ltr. (depending on model) |
| Drum diameter | 600 / 800 mm (depending on model) |
| Loading height | 700 mm (ergonomically favorable) |
| Duration of program | 30 - 60 min. |
| Temperature range | min. 55° C (without additional heating) |
| Steam connection (option) | V-flange 3/4", DN 20, Ø 26,9 mm |

Material

Rustproof stainless steel 1.4301

Dimension (W x D x H in mm)
